School Project # 1: Safety & Fire Prevention

This term's school project is 'Safety & Fire Prevention'. The students have been introduced to the theme since the beginning of the term. They have enjoyed stories, activities, arts & crafts and much more to get acquainted with the topic. To enhance their learning and understanding, we invited the Huamark Fire Department to come down to the Center to share different facts about a firefighter's duty is and how to put out fire.

All the students had a good opportunity to climb up the fire truck, honk the horn and spray water. Moreover, they practiced using a fire extinguisher and how to "Stop-Drop-Roll" when they saw smoke. Pictures of the activities have already been posted on our school Facebook. Please feel free to like and share the pictures.

Student Development Report

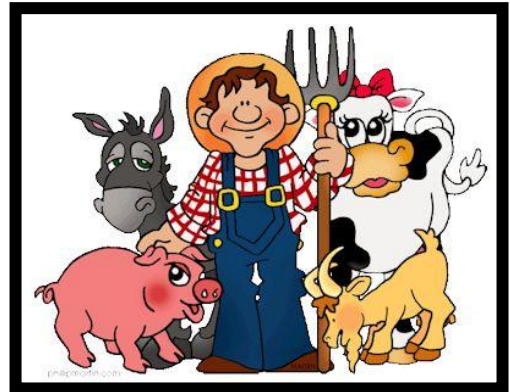

Apart from academics, IMC also sees the importance of social and emotional development among the children of ages 2-6, especially when the children come to school. To give a general guide line of what the necessary social skills are, all the students will be observed and assessed by their class teacher during school hours. All parents will receive a development report by the 17th of September. This report focuses on the children's social and emotional development in general, character development and personal development.

Fancy Party Theme: At the Farm

This year's Fancy Party will fall on Friday the 28th of October, 2016. All parents are encouraged to dress up with their children to join the party. There will be games, balloons, a magic show and performances from all the students of IMC. There are 3 prizes for the best costume. They will be categorized by most creative, most economical and best dressed family.

A ticket of 200/- for each adult and accompanying child (*Free for IMC students*) attending the party will be charged to sponsor the event. IMC welcomes parents who wish to sponsor or contribute gifts and prizes towards the winners of the best costumes. This year, to make it more inviting and colorful, we encourage parents to help set up booths or centers for games or even selling home-made products. Please feel free to join us and make it a memorable event for all the children.

Parent-Teacher Meeting

This Term's Parent-Teacher Meeting will be held from the 7th – 11th of November, 2016. A detailed schedule of the date and time will be given out to you by your child's class teacher. Parents will be briefed about both academic and social development of each child. A form will be sent home before the meeting, to give a general guideline for parents on what will be discussed. Parents will also be requested to fill up the form and send it back to the class teacher before the meeting.

Parents who are unable to attend the meeting during the appointed date may request for a rescheduled meeting with the class teacher during the week of Parent-Teacher Meeting. The Center encourages all parents to attend the meeting.

Term Break

This school term will end on Friday 11th of November, 2016. It will be followed by a short break of 1 week. The school will re-open for the 2nd Term on Monday 21st of November, 2016.

During the term break the office will be open for half day from 8:00-12:00 from Monday to Friday. The Center will be arranging a workshop and training for all our staff and teachers during the term break. Parents who wish to visit the school are requested to come before 12:00pm.
